Renewable Energy Systems and Sustainability Conference

Monday, July 31 – Tuesday, August 1, 2017

Florida Polytechnic University, Lakeland, FL - 33805

The Renewable Energy Systems and Sustainability Conference aims to foster knowledge, research breakthroughs, education and workforce development. This conference hosting is part of our Educational and Curriculum Development grant funded by FESC.

Conference Agenda and Registration

<http://reg.conferences.dce.ufl.edu/FESC/>

Students - \$25 (includes shared hotel room for 1 night)

Faculty/Staff - \$50

Industry - \$75

Registration fees cover conference materials, lunch on first day, breakfast second day, and networking breaks.

Abstract Submission and Timeline

Abstracts (oral and poster* presentations) for the renewable energy and sustainability topics can be accepted in a plain English language (less than 300 words, Times New Roman, 12 font) with no graphics, tables, or references. The timeline mentioned below will be strictly followed. Please send your abstract on <http://abstractr.dce.ufl.edu/>. Please email RES&SC@flpoly.org for questions and also contact for sponsorship opportunities.

*Students are encouraged for the poster presentations (size: 3ft X 4ft).

Sponsorship Opportunities

Conference organizers encourage and seek sponsorships up to \$1,000 each. Logo placement in conference program, mention during opening and closing and complimentary registration (exhibit booth upon request), will be provided in recognition of request.
