Abstract

Start the paper with the abstract you submitted previously but remove any graphic elements. If possible, reduce the abstract text to less than half a page.

For papers with more than one author, underline the speaker. If the authors are from different organizations, mark the authors by superscripts 1, 2, 3…as shown above. If the authors are from the same organization, no superscripts are required.

Key words: Choose 5 key words Aaa – Bbb – Ccc – Ddd - Eee

Heading

To ensure a consistent look of the papers when published, use the pre-set styles in this document to format text. Please do not change any existing formatting in this document including the language, page size, margins, text and paragraph formatting, line spacing, styles and blank lines between text.

Do not use headers or footers and do not use page numbering.

2. <u>Section 2</u>

<u>Figures and Tables</u>

Figures and tables should be numbered. Figures and tables (including captions) should be centered.

You can place narrow figures and tables (including captions) on the left side or the right side of the page and fill the remaining space with text.

Figure captions should be placed at the bottom of the figure and table captions should be placed at the top of the table.

Also, please reduce the bit depth (colour quality) and resolution of the figures to keep the file size to a manageable level.

Please do not incorporate rotated pictures or rotated tables.

<u>Equations</u>

All equations should be centered and numbered. Please use Microsoft® Equation 2.0 or 3.0.

$$X(t) = \sum_{i=1}^{n} \left(\frac{a_i^2}{b_i} \sqrt{c_i} \right)^{e^{\frac{-b}{t}}} \tag{1}$$

We suggest setting a tab-stop at 7.0 cm with centre alignment and a tab-stop at 15.0 cm with right alignment.
